Projects

AI Resume Analyzer & Interview Prep Platform

React.js, Node.js, Express.js, MongoDB, Gemini API

GitHub | Live Demo

- Built and deployed a full-stack MERN platform, secured with **JWT authentication**, that analyzes resumes against job descriptions and generates personalized interview reports, tested by **10+ users**.
- Developed **7 REST APIs** for authentication, resume analysis, report generation, and report retrieval using Node.js and Express.js.
- Built an AI report pipeline generating **16 structured insights**, including match score, ATS gaps, skill gaps, and technical, coding, behavioral & project questions.
- Developed a **PDF-to-AI pipeline** using Multer and PDF parsing to extract resumes and store generated reports in MongoDB.

Chatify — Real-Time Chat Application

React.js, Node.js, Express.js, MongoDB, Socket.io, Cloudinary

GitHub | Live Demo

- Built a **full-stack MERN real-time chat platform** with **10+ REST API operations** for authentication, user discovery, private messaging, chat partners, and group management.
- Implemented **JWT + Bcrypt authentication** and **Socket.IO real-time messaging** for instant, bi-directional message delivery, with **MongoDB persistence** for private/group conversations and support for text and image messages.
- Integrated **Cloudinary for media storage** and **Nodemailer/Resend for automated email notifications**, and configured production deployment with CORS, environment variables, and separate frontend/backend build pipelines.

Experience

Freelance Full-Stack Developer — Active Learning Child Therapy Center

Dec 2025 – Jan 2026

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Nodemailer, REST APIs

GitHub | Live Demo

- Independently developed a responsive MERN-based website for a child therapy center end-to-end, from schema design through deployment.
- Built a secure admin panel to manage services, blogs, gallery, appointments, website content, and SEO settings.
- Developed REST APIs, authentication, and MongoDB integration enabling efficient content management and self-service website administration for non-technical staff.
